2013 / 2014 ANNUAL IMPACT REPORT

PRESIDENT'S REPORT

It has been a remarkable year. We began with record enrollment. At the end of the year, we celebrated the largest graduating class in our history. Yet success is not measured solely in numbers. The number of lives impacted through their experience at Tyndale translates to a greater influence Tyndale graduates are able to have on the world.

We thank God for this. And we thank you for this. Your support truly has eternal impact.

Preparations to move to our new home on Bayview Avenue are well underway. Looking back at events that took place this year we realize that there was no way we could have predicted the delays and challenges we experienced as we embark on this transition. This has been a stretching time as we listen to God, anticipating what God wants to do amongst us and through us. It is an adventure of patience and hopeful endurance!

This past year we have clearly seen God at work. Looking ahead, the future is full of opportunities. Possibilities of what the Bayview campus will allow us to do frequently emerge and we are able to dream dreams not previously available to us. We are pleased to have company along on the journey. We wouldn't be where we are without you, and this next chapter isn't possible without you.

As you read this report, I hope you are inspired by how God is using students and alumni around the world. Thank you for your partnership in shaping students so that they can go out and change the world.

Shalom,

Gary V. Nelson, DMin
President and Vice Chancellor

For 120 years, Tyndale University College & Seminary has been preparing women and men for work in the private, public and not-for-profit sectors, ministry, and the global mission of the church. Tyndale offers programs in a wide range of disciplines at both the undergraduate and graduate levels, fully accredited by the provincial government. Undergraduate students may study toward a Bachelor of Arts, Bachelor of Religious Education, Bachelor of Education or a certificate in Christian Studies. Graduate level education includes a Doctor of Ministry degree; master's degrees in Divinity, Theological Studies or Theology; and a graduate diploma in Christian Studies, Missions, or Spiritual Formation. With more than 1,600 students representing over 40 denominations and 60 ethnic backgrounds and nearly 12,000 alumni, the Tyndale community invites you to join us in celebrating our 120th anniversary.

UNIVERSITY BREAKS ENROLLMENT RECORD

In the fall 2013 semester, Tyndale University College welcomed the largest enrollment in its history with over 600 students. This record-breaking enrollment represents a 27 per cent increase over a five-year period. The university continues to expand and diversify its programs, offering students increased opportunities for learning and the practical experience needed to give them a competitive advantage over graduates from other universities and colleges.

EXCITING NEW PROGRAMS

Following the launch of five new Christian ministry minors within the Bachelor of Arts (BA) programs, 20 per cent of university students were taking a minor as part of their program in the 2013–2014 academic year. These new minors provide students in other majors with the unique opportunity to pursue any career and still be equipped to volunteer or work in ministry settings.

Tyndale has taken an important step in making the Master of Theological Studies (MTS) degree available for students to complete fully online. In the 2013–2014 academic year, Tyndale had a record-breaking 529 online course registrations.

A new Doctor of Ministry – Spiritual Formation track was designed to give ministry leaders the unique opportunity to deepen their life with God. 17 students were enrolled in the program in the first year it was offered.

89% of university students at Tyndale said they were satisfied with their decision to attend the school.

ENGAGING THE CROWD

Tyndale is engaging the crowd through its new peer-to-peer giving platform called Engage Tyndale. Peer-to-peer giving, also called crowdfunding, is the practice of funding a project by raising small amounts of money from a large number of people, typically online. There are a variety of projects that Tyndale supporters can support. From 120th Anniversary Celebration projects, Student Experience projects, to student scholarships and bursaries, Engage Tyndale fosters a supportive online community that is enhancing the student experience. engage.tyndale.ca

Inspired to Give

GORDON STANTON

Gordon Stanton [BA Business Administration 2011] is a Chartered Professional Accountant (CPA, CA) with Norton McMullen Chartered Professional Accountants + LLP – a firm that has served the GTA for over 40 years.

Gordon is the first university graduate from Tyndale to be licensed by the Chartered Professional Accountants of Ontario (CPA Ontario).

“As a CPA, I take a holistic approach to everything I do. I help organizations realize operational efficiencies and achieve their own mandates, while ensuring

they are compliant with Canada Revenue Agency guidelines,” says Gordon.

He works with a wide range of organizations – from small to medium-sized companies to Christian mission organizations. “It all comes down to how we use our resources to impact the world for God,” says Gordon. “As a CPA, I see myself as an integral part of helping make this happen.”

Not only is Gordon a Tyndale alumnus, but he’s also a Tyndale donor.

“It’s so important to make the best use of the resources God has given us. I wouldn’t have been able to afford an education at Tyndale without past donors. I’ve been blessed with a degree that has changed my life. I believe it is my responsibility to give back to Tyndale.”

Gordon sees that Tyndale is at an incredible place in its history. “Bayview has the *substance* of a university campus. It will allow Tyndale to expand academic programs and the student body.”

He believes students come to Tyndale because they value an education that offers a unique blend of academics and faith. He sees this value in his own education. “I couldn’t imagine my life without a Tyndale university education – that is why I give back.”

“ I don’t think I truly enjoyed learning until I went to Tyndale. I have never been an academic, but I loved coming to school; I woke up excited to go to Tyndale. It’s now my third year as a teacher and I still reflect back on my courses almost every day when I’m teaching in the classroom.”

2013-2014 Financial Report: Operations

Change can be good, and it can also be challenging. Transitions can be exciting and inspiring, and they can also be stretching and unsettling. Tyndale is in the midst of all of this with the transition from the Ballyconnor campus to the Bayview campus. We are thankful for generous supporters like you who have partnered with us on this journey!

Work has been completed in replacing old air handling units, upgrading wiring, installing wireless internet capacity and ensuring that the life safety systems at Bayview are compliant with current fire codes. The kitchen is being renovated, a new library is about to be built and other work is underway throughout the main building. Our staff are putting in extra hours to maintain two campuses and ensure minimal disruptions to the academic activities that are taking place at both. Throughout it all, we are sustained by the unshakable belief that this is a God-led endeavor. (See "The Road to Bayview" blog at tyndaleblogs.ca/bayview for more stories and updates about what God is doing at Bayview.)

As reported in last year's Annual Impact Report, Tyndale has been carrying the operating costs of both campuses this year. This will continue until the renovations are finished and the sale of the Ballyconnor campus is completed. Regulatory delays in receiving the renovation permits for the Bayview campus have resulted in a deferral of the Ballyconnor closing, likely to early 2015. We also have known that short-term bridge financing would be necessary to enable us to proceed with the renovations while new capital funds are raised. Before consideration of the additional facilities costs resulting from the transition, Tyndale would have realized an operating surplus instead of an operating loss during the latest fiscal year. We anticipate Tyndale returning to its history of operating surpluses once the transition is behind us, all operations are located on the Bayview campus, growth in student numbers and third party revenue streams accelerates, and donations from people and organizations that believe in and support the important mission of Tyndale replace the short-term bridge financing required to complete the renovations.

Tyndale is at yet another important juncture in its 120 year history. Just as the move from Spadina Road to Ballyconnor Court 35 years ago launched a new era for Tyndale, so too will the move from Ballyconnor Court to Bayview Avenue by propelling Tyndale into an era of increased growth and engagement with its many communities. Join us today in helping make this happen!

Pray. Celebrate. Give.

One descriptive of Tyndale is a movement of people who are passionate about their faith and as a result are seeking to shape the culture around them, in whatever profession or activity they are called or wherever God places them geographically. Your investment in Tyndale has exponential, eternal impact. Each life that is touched through a Tyndale experience is multiplied by the lives they in turn go out and touch.

We are in a season of celebration. Recognizing what God has done through Tyndale for 120 years and the planned move to a new campus which will propel us into the next 120 years are reasons to pause and give thanks. We are so grateful to the community of supporters who give to and pray for Tyndale.

As we move carefully and prayerfully in obedience to God's call – following boldly in the path He has set before us – we continue to desperately need your prayer, support and encouragement. Thank you for making an exceptional Christian education possible for Tyndale students. **Thank you for being a part of the movement.**
